

27W USB-C 2.0 CABLE WITH DIGITAL DISPLAY, USB-C+USB-A/M TO LIGHTNING+USB-C/M 10.01.2501

.....
EAN: 8433281017269

Smart charging, total control every second. A versatile cable with a digital display that shows you the power in real time while powering your devices with maximum efficiency and full compatibility.

A flexible solution for mobiles, tablets, and compatible devices, reducing the need for multiple cables.

Enables fast charging on compatible devices and optimises charging times without compromising stability. Ideal for everyday use, both in the office and on the move.

It incorporates a **digital display** that shows the watts (W) of load at any given moment, providing clear and accurate information on energy performance.

Specifications:

- USB-C and USB-A input; Lightning or USB-C output.
- The cable delivers up to 27 W of power, enabling fast charging for compatible devices.
- Its digital display allows you to see the charging watts (W) in real time.
- Cotton mesh cable.
- Length: 1 metre.
- Colour: Black.
- Regulations: RoHS.
- Functionality test: 100% tested.
