

NANOCABLE

The way to connect

USB 3.2 GEN2X2 20GBPS 5A/100W CABLE, USB-C+USB-A/M A USB-C/M

A single cable to move power and data at **maximum speed**, without hesitation or limits. Designed to perform when the flow cannot be stopped, it connects your digital ecosystem with **power, precision, and freedom of movement**.

Capable of **reliably transporting energy**, this cable supports the charging of your most demanding devices **without losing stability**.

The transfer flows **quickly and consistently**, allowing data to be moved smoothly between compatible computers, workstations, and devices without interruption.

It combines **robustness** and a **pleasant feel**. Its reversible connector makes every connection easy, while its three-metre length provides comfort and freedom in any environment.

Specifications:

- The cable offers up to 5 amps of charging power, allowing you to charge multiple devices.
- The USB Type-C connector is easier to use than previous-generation USB connectors. Its reversible design allows you to connect devices with either side facing up.
- Transfer speeds of up to 20Gbps.
- Compatible with Windows and Mac.
- Aluminium connectors and textile braiding.
- Standards: RoHS.
- Functionality test: 100% tested.
