

USB-C 3.2 GEN2X1 AOC, 60W 3A 10G 8K@60HZ CABLE

Unlimited distance. Uncompromised performance. A fibre-optic cable designed to carry **data, power** and **8K video** further, without loss and with complete precision. Engineered for demanding connections where every signal counts.

Using fibre optics to ensure **stable, high-speed transmission** even over long distances.

A comprehensive solution for environments that demand high performance in terms of data, power and visual quality.

The **reversible USB-C connector** makes it easier to use, preventing connection errors and protecting the device's ports.

Specifications:

- Ideal for connecting your USB-C mobile device or tablet to a computer with a USB-C port.
- Made from optical fibre to provide data transfer speeds of up to 10Gbps.
- Supports PD charging up to 3A 60W for any device up to 60W.
- Supports video up to 8K@60Hz.
- The USB Type-C connector is easier to use than previous-generation USB connectors.
- Standards: RoHS, REACH, CE.
- Functionality testing: 100% tested.
