

**HDMI V2.1 AOC CABLE  
8K@60HZ 4K@120HZ 48GBPS**

Thanks to our premium construction, top-quality materials, and, of course, the use of optical fiber, our cables will enable you to achieve high-speed data transmission. You won't lose a shred of quality, even over long distances.

It achieves a bandwidth of 48Gbps and a video resolution of 60Hz in 8K.

Our cables come in convenient coils ranging from 30 to 100 meters in length.

This cable is unidirectional and needs to be properly installed for it to function correctly. Make sure to check the information on both connectors of the cable to avoid any confusion!
