

## HDMI 2.0 CABLE, 4K @ 60HZ WITH REPEATER

The HDMI 2.0 cable can achieve 4Kx2K @ 60Hz video resolutions. A high-quality cable with multiple shielding to reduce possible interference. **A solution for all kinds of professional environments.**

The HDMI 2.0 cable achieves **ultra HD speed up to 18 Gbps, 4Kx2K @ 60Hz** resolution, and supports **HDR** “High Dynamic Range”.

The connectors are **shielded in gold** for a lossless signal. **Multiple shielding** for maximum interference reduction.

Our cables have a chipset with signal repeater: Models **10.15.3715** and **10.15.3720** carry it on the **output** connector, and models **10.15.3725** and **10.15.3730** have the chip in the center of the cable length to avoid any loss of quality.

### Specifications:

- Supports video resolutions up to 4Kx2K @60Hz, 3D. Bandwidth up to 18 Gbps.
- Chipset with repeater.
- Multiple shielding for maximum reduction of possible interference.
- Manufactured with high quality copper conductors.
- Retrocompatible with previous HDMI specifications.
- Compatible with HDR (High Dynamic Range).
- Supports audio return channel functionality (ARC).
- Compatible with up to 32 channels of uncompressed digital audio.

Code	EAN	Color	Length
10.15.3715	8433281009752	■ Black	15.0 m
10.15.3720	8433281009769	■ Black	20.0 m
10.15.3725	8433281009776	■ Black	25.0 m
10.15.3730	8433281009783	■ Black	30.0 m
