

CABLE CONVERTER DISPLAYPORT MALE IN ONE END AND HDMI MALE IN THE OTHER

The converter cables facilitate connectivity between different multimedia devices with different connections. This way you will avoid using adapters, converters or additional cables, you will have it all in one product. **They are perfect for domestic and professional environments.**

The Displayport to HDMI converter cable supports **video resolutions up to 4Kx2K**. Compatible DisplayPort 1.2a and HDMI 1.4b.

Gold shielded connectors to avoid any signal loss and improve image/sound quality.

The converter cable is a component **capable of transforming the technology from one device to another type of signal**. It is ideal for professional and domestic use.

Specifications:

- Compatible DisplayPort 1.2a and HDMI 1.4b.
- Supports video resolutions of up to 4Kx2K.
- Supports DisplayPort Content Protection (DPCP) and Protection of Digital Content of High Bandwidth (HDCP 1.3).
- Contacts bathed in gold.
- Shielded Cables (Aluminum Film).
- Cable: 100% Copper.
- Compliant with the RoHS directive.
- Packing: Retail bag
