

USB-C TO HDMI CONVERTER CABLE

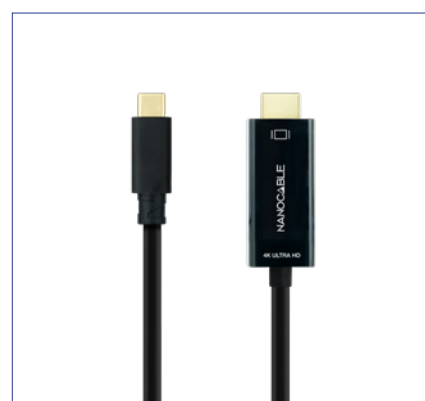

Connect your device to your monitor or television and enjoy all the content you want

It is totally Plug & Play. You only have to connect the USB-C connector to your device and the HDMI connector to the display.

The conversion is unidirectional, so the USB-C connector will always be connected to the video signal output port and the HDMI connector to the input port.

Our cables are designed and manufactured with high quality materials. It is 100% copper, with nylon sheathing and aluminum connectors.
