

HDMI 2.1 IRIS 8K CABLE

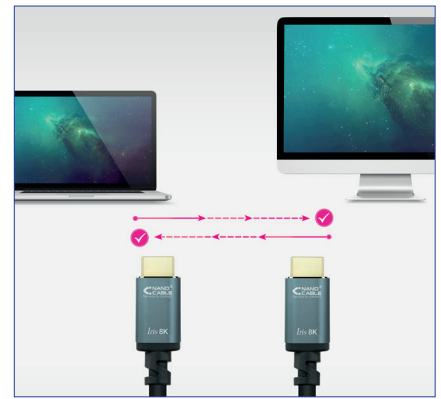

Have fun watching your favourite movie or videogame and take the experience to the highest definition.

Up to **48Gbps bandwidth** and video resolution of 60Hz in 8K and 120Hz in 4K.

This cable **supports eARC** and **HDR compatibility** for an impressive picture and sound. A full home theater experience.

Fully **Plug & Play**, all you need to do is plug the cable from the device to the screen. Furthermore, it is **bi-directional**, so audio and video signal flows in both directions.
