

HUB USB-C 9 IN 1 USB-C TO 3XUSB-A, USB-C PD, HDMI, RJ45, TF, SD, AUDIO CONVERSOR 10.16.0901

The best way to **convert your PC on a multi-port computer**. Break boundaries and get the most out of your devices. Moreover, our HUB is compatible with Windows, MacOS, Android and Linux distributions.

With our HUB you will charge your phone, connect a screen, transfer data from a disk to your computer, read memory cards, and, if you want, you will be able to be connected to the net through a cable with a RJ45 port.

Functionality and style come together in an avant-garde design. A futuristic finish and RGB led light reminiscent of the cyberpunk classics.

Moreover, it is so light and tiny so small and lightweight that you can store it anywhere and take it with you wherever you go.

Especificaciones:

- USB-C Connection, transmission of USB3.1 Gen 1 data and compatible with PD 3.0 5V-20V 3A.
- 3 USB-A ports, transmission of data USB3.1 Gen 1 and 5V 0.9.
- Charge Port USB-C, PD3.0 input, maximum 100 W (it does not transfer data).
- HDMI Port, 1.4 version, 4K 30hz
- RJ45 Gigabit IEEE 802.3az, IEEE 802.3, 802.3u, and 802.3ab, IEEE 802.3x Port
- TF slot that supports Micro SDXC, Micro SD, Micro SDHC Card.
- SD slot, that supports SDXC, SDHC, SD, MMC, RS-MMC Card.
- Audio connection, Jack 3.5 mm port, audio conversor chip of ADC de 48/96KHZ and 16 bits included.
- Led Light
- Compatible with Windows, MacOS, Android and Linux distributions
- Wire length: 15 cm
- Black colour
- Dimensions: 131x48x19 mm.
- Material: Aluminium

Important: The TF and SD slots do not admit Reading and writing tasks at the same time.
