

USB-C TO HDMI/DVI/VGA CONVERTER 10.16.4301-ALL

EAN: 8433281013049

With our new converter you will connect multiple screens to your computer and they will all work at the same time! You will play the same content on a screen with HDMI, DVI or VGA.

Connect our converter to your computer's USB-C port on your computer and play the content you want on the connected displays.

All outputs of our converter work at the same time!

View what you want in three different screens.

You don't need any additional software. Once you have everything connected it will work without having to do anything else.
