

USB-C TO 2XHDMI/USB2.0/PD CONVERTER 10.16.4305

EAN: 8433281013292

Our Nanocable converter will enhance the capabilities of your new computer. Expand your device's connectivity options, with just one USB-C port you can have two HDMI ports, a USB-A 2.0 port, and an additional USB-C port for charging. Keep adding up!

Plug our converter into the USB-C port of your device, and you'll have the ability to play content, transfer data, and charge your device.

All the outputs of our converter work simultaneously! With its sleek and compact design, crafted from aluminum, our converter will quickly become your trusted technological ally.

No additional software is required. Once everything is connected, it will work effortlessly without any further action on your part.
