

USB-C TO HDMI/USB3.0/USB-C PD CONVERTER 10.16.4306

EAN: 8433281013308

Your new computer will expand thanks to our Nanocable converter. Expand the inputs of your device, through a single USB-C port you will have an HDMI port, a USB-A 3.0 port and another USB-C charging port. ¡Suma y sigue!

Connect our converter to your computer's USB-C port and you will be able to play content, stream data and charge your device.

With a compact and a minimalist design, made of aluminum, our converter will become your new technological ally!

You don't need any additional software. Once you have everything connected it will work without having to do anything else.
