

7-IN-1 USB-C/USB-A HUB WITH USB-C POWER SUPPLY

10.16.4510

EAN: 8433281017474

More ports, more control, more connectivity. A hub designed to expand your workspace and **manage multiple devices** conveniently, quickly and efficiently from a single connection.

Easily expand your device's connectivity with its **4 USB-A 3.0 ports** and **3 USB-C 3.0 ports**.

It features **separate on/off switches** to switch each connection on or off as required.

All ports support data transfer and device charging, with speeds of **up to 5 Gbps**.

Specifications:

- Additional USB-C port for 5V / 1.5A power supply.
- Connect and control up to 7 devices, such as keyboards, mice, printers, external hard drives and USB sticks, amongst others.
- Individual on/off switches to turn each port on or off.
- Separate LEDs indicating the status of each port.
- All ports support data transfer and device charging.

Note: The total current drawn by the 7 outputs depends on the output of the USB port on the device to which it is connected.

- Transfer speed up to 5 Gbps.
- Plug and play.
- Compatible with Windows, macOS and Linux.
- Cable length: 18 cm.
- Colour: Silver.
- Material: Aluminium alloy + ABS.
