

## CABLE ORGANIZER

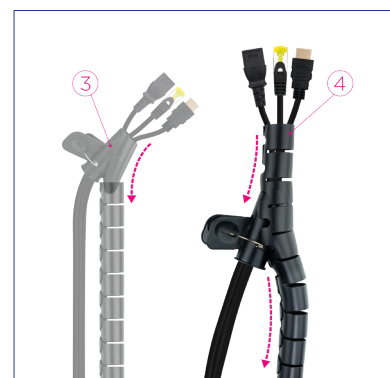

Do the cables intertwine by themselves?  
Now, keep your work and home spaces  
totally tidy and without visible wires!  
Also, our cable organizer is available in  
white and black.

The adapter is placed **with the up arrow** and opens by placing the cables inside.

**The adapter is inserted** with the cables at one end of the organizer.

**The adapter slides** along the entire organizer, leaving the cables in its path.

**The cable organizer** is perfect for convenient and easy cable picking up **in any environment**. Thanks to its **flexible** and **resistant** composition of **one meter in length and a diameter of 25 mm**; provides **easy and quick** installation, resulting in the cables ordered and concealed inside.
