

## 3 SOCKET DESKTOP POWER STRIP WITH USB-A / USB- C PORTS

Nanocable introduces the perfect family of power strips for domestic and professional use. Available in black and white, with three USB charging ports and led light, what are you waiting for discovering them?

Do you need to charge several devices? Don't be worried about not having enough power strips or USB-A / USB- C charging ports at home or office.

Our power strip has a touch switched to connect the led light. This is how you will be able to see easily all your connections to the electricity network.

It is perfectly sized so that you can place it on a desk, against a wall, in your bedroom, at the office, be creative!
